Outline

1. General
2. Environments
3. Commands
4. Math
5. Figures
6. References

1

General

→ Colors

- General colors: niceblue nicered nicegreen nicepink nicegray
- Grays: lightgray mediumgray darkergray
- CSU colors: csugreen csugold csugreendarker
- Beamer theme colors (global): fixedbgcolor primarycolor graycolor
- Beamer theme colors (light/dark): textcolor textcolorlight textcoloremph bgcolorlight edgecolor

→ `itemize` and `enumerate` Environments

- Apples
  - Apples
    - Apples
    - Apples
  - Apples
  - Apples
- Apples

1. Oranges
   1. Oranges
   2. Oranges
      1. Oranges
      2. Oranges
   3. Oranges
2. Oranges
3. Oranges

2

Environments

→ Quote

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetuer id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas.

→ Theorem, Definition, and Algorithm

Theorem (Some Text)

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris.

Definition (Some Text)

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris.

Algorithm (Some Text)

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris.

Special Call-Out Boxes (1)

- These are intended to be in an itemize/enumerate environment

Remark

Lorem ipsum dolor sit amet, consectetuer adipiscing elit.

Important

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis.

Looking Ahead

Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetuer id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas.

Question

Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris.

Special Call-Out Boxes (2)

Optional

Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetuer id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas.

Review

[Review Context] Nam dui ligula, fringilla a, euismod sodales, sollicitudin vel, wisi. Morbi auctor lorem non justo. Nam lacus libero, pretium at, lobortis vitae, ultricies et, tellus.

Review

[Review Context] Nam dui ligula, fringilla a, euismod sodales, sollicitudin vel, wisi. Morbi auctor lorem non justo. Nam lacus libero, pretium at, lobortis vitae, ultricies et, tellus.

Review

[Review Context] Nam dui ligula, fringilla a, euismod sodales, sollicitudin vel, wisi. Morbi auctor lorem non justo. Nam lacus libero, pretium at, lobortis vitae, ultricies et, tellus.

→ Code Listing

Some Matlab code:

```
% This program prints Hello, world!

disp("Hello, world!")
```

Some Python code:

```
# This program prints Hello, world!

print('Hello, world!')
```

Be sure to use the `myslidefragile` environment!

3

Commands

→ Footnote Commands

Use[1] `\parnote` and[2] `\parnotefull` for[3] footnotes[4,5]
Use the `b` slide option when you have footnotes

[1] This is the first one [2] This is the second one [3] This is the third one that takes up the rest of the line
[4] This is the forth one that takes up the rest of the line
[5] This is the fifth one

URL Commands

`\urlfull` with an example https://www.engr.colostate.edu/~drherber and in a footnote[1]
`\urlhttps` with an example www.engr.colostate.edu/~drherber and in a footnote[2]
`\urlvideo` with an example www.youtube.com/watch?v=N17Od3rY0bA and in a footnote[3]

[1] https://www.engr.colostate.edu/~drherber [2] www.engr.colostate.edu/~drherber
[3] www.youtube.com/watch?v=N17Od3rY0bA

→ Other Commands

Use `\qedsymbol` for □
Use `\myterm` for terms like #*Term* (see next slide and `\mytermslides`)
Use `\myline` for a horizontal dividing line

Use `\eqrepeat` to repeat the last equation number (good when you want to repeat an equation on the next slide):

$$A = \frac{\pi r^2}{2} \tag{1}$$

$$A = \frac{\pi r^2}{2} \tag{1}$$

→ Examples of Terms #*Term Title*

#*Term Text 1* Lorem ipsum dolor sit amet, consectetuer adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. #*Term Text 2* Curabitur dictum gravida mauris.[1]

Theorem (Great)

Curabitur dictum gravida mauris. #*Term Theorem Text*

1. #*Term List 1*
2. #*Term List 2*

Remark

#*Term Box*

Doesn't work in equation environments, but you can use inline math such as #*Term* $x - \mathcal{L} - \boldsymbol{x}$

[1] They work in a footnote #*Term Footnote*

4

Math

→

$$x \tag{2}$$

→ `eqbox` Command

This is an equation: $\boxed{A = \frac{\pi r^2}{2}}$. Here it is again:

$$\boxed{A = \frac{\pi r^2}{2}} \tag{3}$$

Another a symbol is $\boxed{\alpha}$

➞ `bNiceMatrix` and `pNiceMatrix` Environments

$$\begin{array}{c} \\ \boldsymbol{r}_1 \\ \boldsymbol{r}_2 \end{array} \begin{array}{c} \begin{array}{ccc} \boldsymbol{c}_1 & \boldsymbol{c}_2 & \boldsymbol{c}_3 \end{array} \\ \begin{bmatrix} 1 & 2 & 3 \\ 4 & 5 & 6 \end{bmatrix} \end{array} \tag{4}$$

$$\begin{array}{c} \\ L_1 \\ \vdots \\ L_4 \end{array} \begin{array}{c} \begin{array}{ccc} C_1 & \cdots\cdots\cdots\cdots & C_4 \end{array} \\ \begin{pmatrix} a_{11} & a_{12} & a_{13} & a_{14} \\ a_{21} & a_{22} & a_{23} & a_{24} \\ a_{31} & a_{32} & a_{33} & a_{34} \\ a_{41} & a_{42} & a_{43} & a_{44} \end{pmatrix} \\ \begin{array}{ccc} C_1 & \cdots\cdots\cdots\cdots & C_4 \end{array} \end{array} \begin{array}{c} \\ L_1 \\ \vdots \\ L_4 \end{array} \tag{5}$$

5

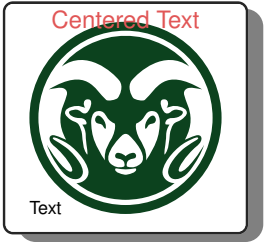
Figures

→ `myfig` Command

→ `myfigcol` Command

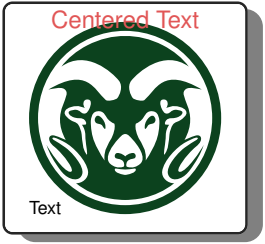
Nunc sed pede. Praesent vitae lectus. Praesent neque justo, vehicula eget, interdum id, facilisis et, nibh. Phasellus at purus et libero lacinia dictum. Fusce aliquet. Nulla eu ante placerat leo semper dictum. Mauris metus. Curabitur lobortis. Curabitur sollicitudin hendrerit nunc. Donec ultrices lacus id ipsum.

→ `myoverpic` Environment



Above Centered Text

→ `myoverpiccol` Environment



6

References

→ References with BibLaTeX

`\cite` with an example: Shampine 2007
`\textcite` with an example: Shampine (2007)
`\parencite` with an example: (Shampine 2007)
`\fullcite` with an example: L. F. Shampine (Aug. 2007). "Accurate numerical derivatives in MATLAB". *ACM Transactions on Mathematical Software* 33.4, p. 26. DOI: 10.1145/1268776.1268781

`\citetitle` with an example: "Accurate numerical derivatives in MATLAB"
`\citetitle` with an example: *Engineering Design Optimization*
`\citeauthor` with an example: Shampine
`\citeurl` with an example: https://textbooks.math.gatech.edu/ila/ila.pdf

Multiple citations work like this example (Martins and Ning 2021; Boyd and Vandenberghe 2009; Cipra 2000) and in a footnote[1]

See command `\refslides` for printing the references
